Have begun learning, exploring, and applying these following cloud based services: AWS, Google Cloud, and Oracle. Also currently learning, exploring, and applying the following technologies: VMWare and Virtual Box.

My Passions

While my personal passion is writing, I am fascinated by the construction of computer hardware which has allowed me to use my developed IT skills from my educational programs.

EXPERIENCE

Seminole Hard Rock Support Services, Remote/Hollywood, FL - IT Int Data Aggregation

September 2021 - February 2022

- Helped to identify gaps where they existed during the mapping process and worked with the technical team in an effort to find a solution
